

**Thank you letter to social studies teacher at Lewis and Clark High School
May 2018**

I know I am speaking for several League of Women Voters members when I share with you how much we enjoyed our time at Lewis and Clark yesterday. Your students were great, and we really appreciated the opportunity to meet with them, to share our voting stories, and to encourage a commitment to life-long voting.

As someone relatively new to Washington State and Spokane, I am struck by the city's focus on community and the level of civic engagement among its citizens. I believe the work you do in civics education fosters this type of commitment. Thank you again giving us the chance to spend a day with your students.
